

Technology Sixth Grade

Program Goal:

Students in the Diocese of Grand Rapids will possess the knowledge and technological skills to obtain, organize and evaluate information to become effective and creative communicators who perform tasks (ethically and legally) to live in a global society.

Content Criteria:

Communication:

1. Students will use correct terminology for technical projects, programs, and equipment.
2. Students will demonstrate the ability to evaluate priorities, problem solve, design and create solutions.

Technological Knowledge:

1. Students will demonstrate an expanded knowledge of keyboarding, desktop publishing, word processing, database, spreadsheet, Internet and Web Page or multimedia and graphic design.

Technical Skills:

1. Students will demonstrate age appropriate word processing, database design, spreadsheet, and presentation software skills.
2. Students will exhibit improved keyboarding skills through accuracy and speed.
3. Students will demonstrate information acquisition and use through projects supporting the grade level curriculum in all subject areas.

Ethical:

1. Students will demonstrate the responsible use of hardware, software, and the Internet.
2. Students will demonstrate accountability for computers and computer use.
3. Students will practice Acceptable Use Policies as they use Internet and other files.
